Domande a scelta multipla

Le risposte possono essere fornite con diversi tipi di grafico in base alle necessità

Gli utenti scrivono parole brevi e Mentimeter le visualizza in una nuvola
Più una parola viene inserita, più diventa grande

**I partecipanti scrivono una risposta libera.
Utile per brainstorming o raccogliere idee**

Participants can write a short answer to any question

Be yourself; everyone else is already taken.	No one can make you feel inferior without your consent.
The greatest thing you will ever learn is just to love and be loved in return.	Do, or do not. There is no "try".
Be the change that you wish to see in the world.	I have seen the best of you, and the worst of you, and I choose both.
What defines you isn't how many times you crash but the number of times you get back.	Life isn't about getting and having, it's about giving and being.

How are we defining "key features"?

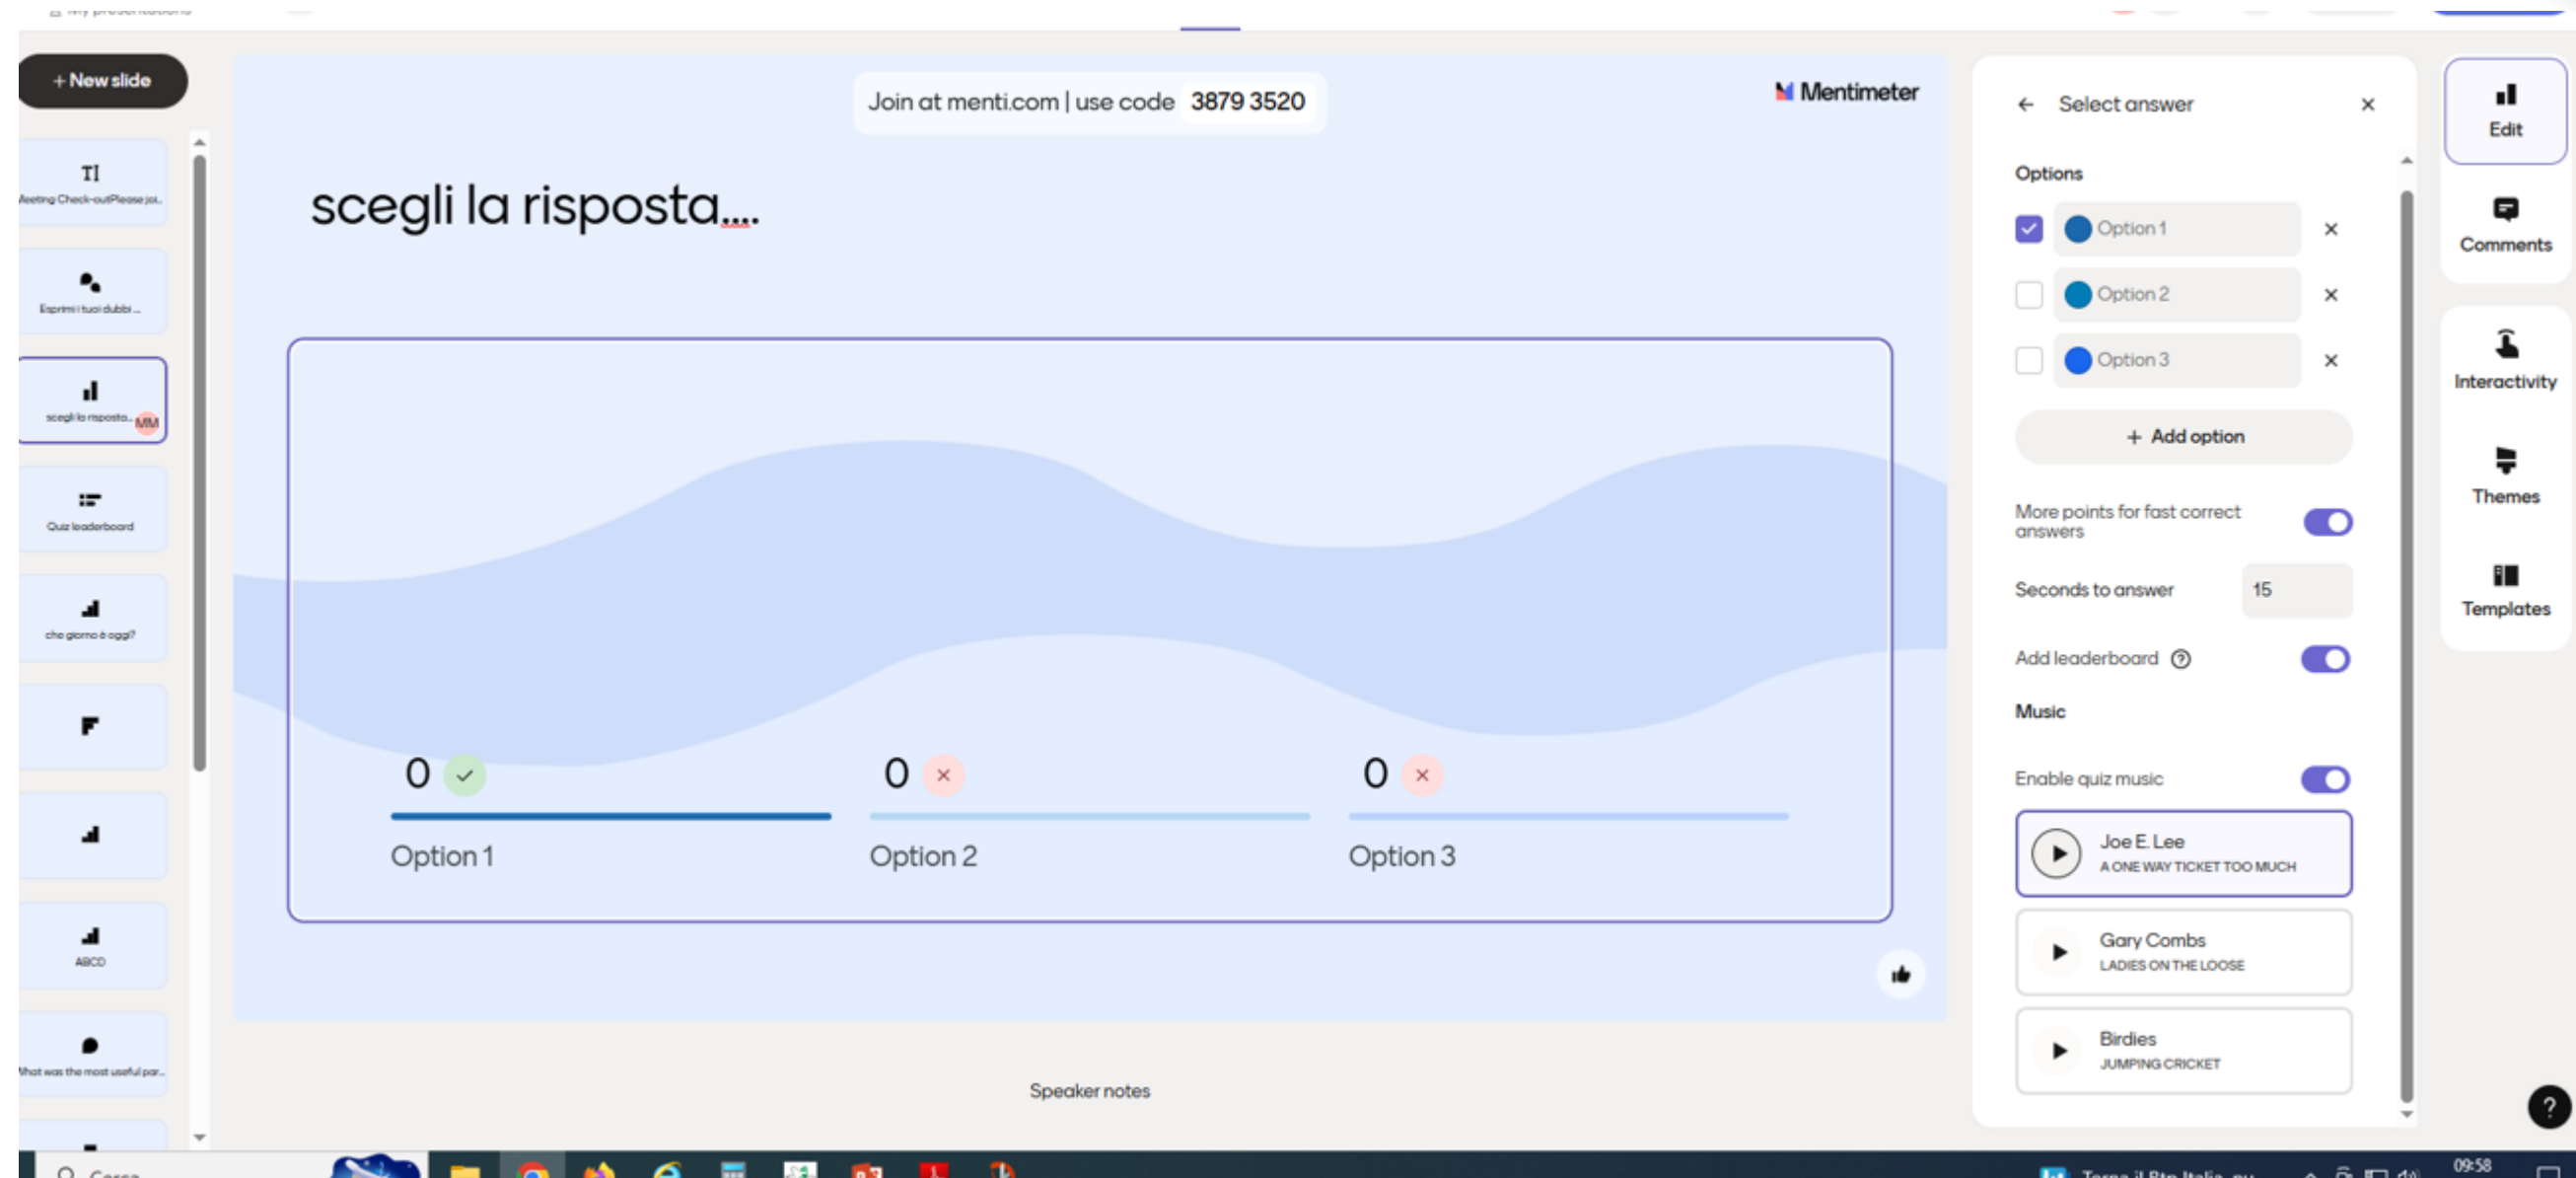

1

Il Competitor in Mentimeter è una funzione pensata per creare una gara o competizione tra partecipanti e va usata nei quiz

I partecipanti possono inserire il proprio nome o nickname (a volte anche avatar, a seconda della versione). Ogni partecipante diventa un “competitor” e il loro punteggio viene tracciato

Alternative

WOOCLAP

Ha il grande vantaggio di supportare anche nella versione base Power point
Più adatto di mentimeter per la formazione, meno bello per fare sondaggi e congressi

SLIDO

Più focalizzato su eventi e conferenze aziendali; meno opzioni grafiche nei sondaggi rispetto a Mentimeter

KAHOOT

Molto orientato al gioco e all'apprendimento; meno adatto a sondaggi anonimi o brainstorming
